

Amendments to the Specification:

Please make the following amendments to the specification. Material to be inserted in replacement paragraphs or sections is in **bold and underline**, and material to be deleted is in ~~strikeout~~ or (if the deletion is of five or fewer consecutive characters or would be difficult to see) in double brackets [[]].

Please amend the title of the application as follows: **REFLECTION-BASED**
VEHICULAR DISPLAY SYSTEM.

Please replace the paragraph beginning on page 13, line 3 with the following rewritten paragraph:

Referring generally to the Attachment, there are depicted several illustrations of different versions of the vehicular display system, including versions mounted at various locations on a dashboard, as well as another version being mounted on an automobile steering column **(see Figs. 8 and 9)**. The illustrations also include a view of one version of the invention without showing it being installed in a vehicle. The Attachment also includes several sheets of drawings with accompanying text showing various proposed mounting mechanisms for the vehicular display system. As seen in the drawings and described in the accompanying text, those mounting mechanisms allow for adjustments to accommodate different types of dashboard instruction, and also different needs of a user-driver (for example based upon the user-driver's height).
